CUHK

SOCIAL SCIENCE

FOCUS

COMPUTATIONAL SOCIAL SCIENCE

This seminar is a required course for students in computational social science, including CSS fellows, students in the CSS concentration, and students engaged in CSS studies.

 **Lab Website:** [CSSL \(Computational Social Science Lab\)](#).

About the Seminar

-  **Lab** — The first lab in Hong Kong advocating for computational social science.
-  **Rhythm** — Every two weeks, we gather to discuss and exchange ideas.
-  **Anchor** — Students replicate and extend influential work published in top journals.
-  **Repository** — Records the papers we have replicated and traces the path we have taken.

Course Information

Course	Seminar: Computational Social Science
Code	SOSC 7010-20
Required for	CSS fellows, CSS concentration, CSS-related students
Lab	CSSL
Rhythm	Every two weeks
Goal	Replicate & extend top-journal work

Highlights

▼ What we do

- Read and discuss frontier research in computational social science.
- Replicate and extend published work from top journals.
- Share ideas, code, and reflections across the lab.
- Build a long-term record of our learning journey.

It is a great honour to serve all members of the lab. This repository records the papers we have replicated and traces the path we have taken.
